Approval of	Diane	1	Jeff Remington made a motion to approve the agendum. Danny Nevarez second the motion. Remaining
the Agendum:			agreed.
Review	All	2	Previous TRC 05-19-11: http://www.cabq.gov/isd/documents/trc meeting agendum min may 19 2011.pdf
Minutes from			Robert Nunez made a motion to approve the Minutes from the previous TRC meeting. Danny Navarez
previous TRC			second the motion. Remaining agreed.

Unfinished Business:	All	5	<b>Art Montoya</b> - Gather information on how other government agencies filter their public networks and report findings back to TRC Committee.
Business:			Research was conducted to review policies for free internet access at a variety of locations both near Albuquerque and throughout the country to include Denver Library, Roswell, State of Washington and Connecticut public library.
			The filtering of free internet access throughout the country varies considerable from one location to another, with many locations allowing unlimited internet access. In general, visual depiction of pornography, obscenity, and child pornography are the categories that are commonly blocked. It is however, at the discretion of the entity to filter whatever categories they deem appropriate. In many libraries there is a separation of computer resources including a kid zone which requires parents signed authorization.
			In the State of Washington, The Supreme Court ruled that a library's Internet filter policy does not violate the free speech protections in the Washington State Constitution. The case is <i>Bradburn v. North Central Regional Library District</i> , No. 82200-0 most importantly, just as a public library has discretion to make content-based decisions about which magazines and books to include in its collection, it has discretion to make decisions about Internet content.
			Currently the free wireless access is being filtered using an application called Untangle. The following three categories are being blocked: Pornography, Obscenity and Child pornography.  Clint Hubbard suggested this should be implemented into Policies, Procedures & Standards. Art Montoya will work with Diane Schaller on this issue.
Routine Business:	All	0	• None
Review TRC Request	All	25	<ul> <li>DEH VIOP System - \$13,277.55 – Patrick Frias – Qwest services are maxed out, there are no capabilities for new tenants. DEH has several bldgs empty that need to be leased but, with no services tenants are not interested. This project was developed out of necessity for space leasing and to make DEH more sustainable. Support, maintenance, configuration, installation and training will be provided under this project and will be for 3 years. Patrick Frias assured the committee this would not be connected or involved with COA's current telephone or network system (Blackbox or CISCO). Robert Nunez made motion to approve. Dave Mathews second the motion. Remaining agreed. </li></ul>

			and support within the department. This request was not addressed since the items in the purchase were covered in the approval of the new standard.  http://trc.cabq.gov/cityapps/trc.nsf/8178b1c14b1e9b6b8525624f0062fe9f/de3b7c32a17a4405872578b2007f6a30?OpenDocument C:\Documents and Settings\openal.COA.000\Desktop\MS Office std 2010 .pdf  • Library IronPort WSA - \$49,936.09 - Kristen L. Woodard - The Ironport WSA web filtering appliance provides web reputation filtering for http traffic, and protection from viruses and malware.  This request was not addressed since the items in the purchase were covered in the approval of the new standard.  http://trc.cabq.gov/cityapps/trc.nsf/8178b1c14b1e9b6b8525624f0062fe9f/2b76a9ee0bdaf7ed872578c00056ee03?OpenDocument C:\Documents and Settings\openal.COA.000\Desktop\Library IronPort WSA .pdf
Review and Approval of Policies, Procedures & Standards	All	30	New
New Business	Various	5	<ul> <li>Status of Active Directory – Mark Leech skimmed around the migration progress and the stages of testing. He expressed concern with various issues involving Access databases and noted we must be aware of compliance issues. Mark assured the migration process would be complete by the end of December.</li> <li>ITIL - Peter Ambs spoke on Architectural Domain teams designed to address such issues as Asset Management, citywide IT standards as well as Enterprise licensing. Peter also mentioned as we work out an agreement with Microsoft our need to take into account existing City contracts department have and how best to transition into Enterprise licensing.</li> <li>Laura Church announced that self-help cards for Windows 7 and Office 2010 were purchased and will be available on the Web.</li> </ul>
